

Lab Coat Laundering Program

Free of Charge on behalf of UCR Environmental Health & Safety!

Only lab coats issued by UCR or UCOP are eligible for this program. These lab coats have an identifying logo:

BENEFITS

- <u>Sustainability</u>: with the ability to launder, the lab coats do not need to be disposed of as hazardous waste as frequently and replacement would not need to be purchased as frequently.
- Environmentally Friendly: the Mission Linen laundering service would prevent contaminated materials removed from laundered lab coats from entering sewer drains, which would otherwise harm the environment.
- <u>Less Costly</u>: properly laundering a lab coat costs the institution much less than purchasing a new lab coat every time.

How To Be Prepared Before Launch:

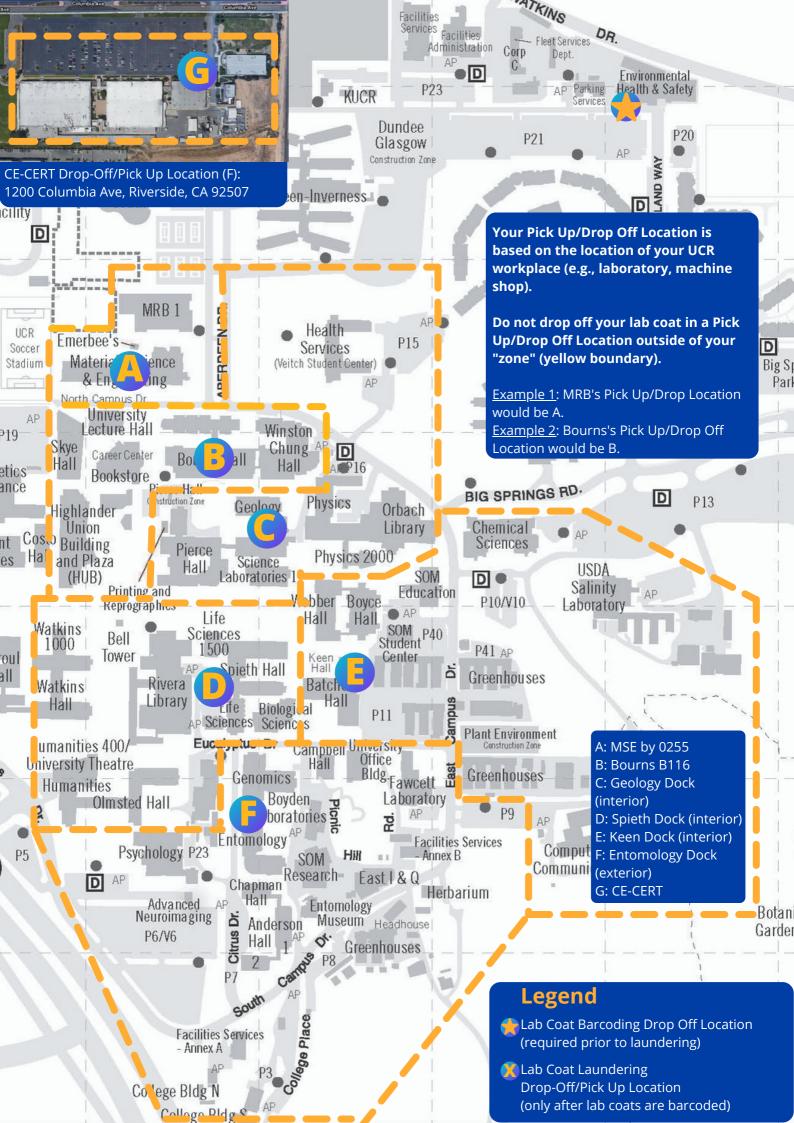

- Ensure that all your information in your Risk & Safety Solutions account is correct, including having been added to the correct Laboratory Hazard Assessment (LHAT) roster.
- 2. Ensure that you have acknowledged the LHAT and completed the PPE Training.
- 3. Check that the name tag affixed to the inside of your lab coat has the correct location information.

What the Process Will Look Like:

- 1. Get your lab coats labelled with Mission Linen barcodes at EH&S.
- 2. Identify your designated laundry location.

 Locations are designated based on your lab building location. See map for details.
- 3. Drop-off your lab coats at your designated laundry location. Be sure to have a clean lab coat to use during this time.
- 4. Return to collect your freshly laundered lab coat from your designated laundry location in approximately 2-3 weeks (holidays and campus closure days may affect this).
- 5. Pick-up and Drop-offs take place on Mondays.

*PICK UP/DROP OFF LOCATIONS DEPICTED ON THE BACKSIDE OF THE FLYER QUESTIONS? PLEASE CONTACT ehslaboratory@ucr.edu or (951) 827-5528 LEAVING UCR? PLEASE RETURN LAB COATS TO EH&S OFFICE

Barcodes:

Bourns: 315932

CE-CERT: 238442

Entomology: 315936

Geology: 315930

Keen: 315934

MSE: 315933

Spieth: 315935

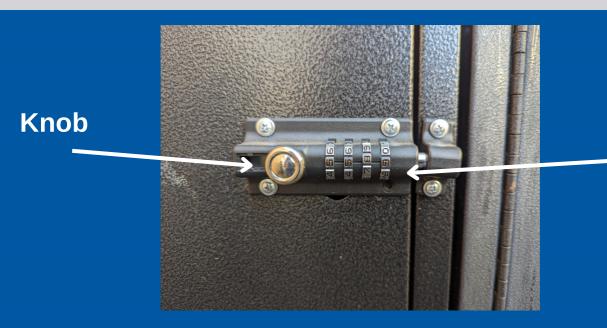

Barcodes:

- 1. Mission Linen issued barcodes will indicating to which location the lab coat will be returned once cleaned.
- 2. If your lab coat is deposited in one location, but has the barcode for another location, it will be returned to the location indicated by the barcode.
- 3. If you move labs and will be using another location or your the barcode currently on your lab coat does not match your location's barcode, please contact ehslaboratory@ucr.edu to have the new location's barcode affixed to your lab coats.
- 4. To have your lab coat barcoded to begin participating in the program, please contact ehslaboratory@ucr.edu
- 5. All lab coats assigned via PPE fittings will be affixed with the appropriate barcode.

USING COMBINATION LOCKS DEPICTED ON BACKSIDE OF FLYER QUESTIONS? PLEASE CONTACT ehslaboratory@ucr.edu or (951) 827-5528 LEAVING UCR? PLEASE RETURN LAB COATS TO EH&S OFFICE

Free of Charge on behalf of UCR Environmental Health & Safety!

Dials

Clean Lab Coat Locker Locks:

- 1. Combination locks have been installed on the lockers for security.
- 2. The combination codes, which will be changed annually, will be provided to your Lab Safety Contacts.

Using the Locks:

- 1. Turn the dials to the set 4-digit combination.
- 2. Slide the latch to the left by moving the knob to the left.
- 3. Retrieve your cleaned lab coats.
- 4. Close the door and re-lock the lockers by sliding the latch to the right by moving the knob to the right.
- 5. Spin the dials again to move away from the set combination.
- 6. You may have to push in on the door when opening and closing as the latch does not perfectly align.
