

UCR COVID-19 PLANNING FRAMEWORK (Updated May 21, 2021)

The table below provides high-level guidance as the UCR campus moves through a gradual return to on-campus activities. Information in the table derives from the efforts of several campus-level committees with broad representation. Each section is backed by more detailed guidance from the appropriate committee.

Public health guidance is based on a hierarchy referencing:

- 1) Guidance from Riverside County public health officer;
- 2) State of California Department of Public Health ([COVID-19 INDUSTRY GUIDANCE: Institutions of Higher Education 9/2020](#)); [Blueprint for a Safer Economy](#)
- 3) Centers for Disease Control or other Federal level guidance;
- 4) In the absence of concrete guidance from the above, other reputable organizations such as the WHO or similar.
- 5) State Law: Cal/OSHA Emergency Temporary Standard Title 8 Section 3205 applies to all employees in the workplace environments included in the focus areas above. It is anticipated to change, and UCOP EHS is actively monitoring any proposed changes.

Also, guidance from UCOP is referenced and reviewed throughout.

Commencement	<ul style="list-style-type: none"> • Max 33%, includes suites with 25% occupancy per suite • Weekly worker testing program • In-state visitors only, check for current CDPH Travel Advisory in effect. • Each student to bring no more than two guests <p>SRC: 3,000 seat capacity</p> <p style="padding-left: 20px;">a. 10% or 300</p> <p style="padding-left: 20px;">b. 35% or 1,050 if 100% tested or vaccinated.</p> <p>University Theatre: 492 seat capacity</p> <p style="padding-left: 20px;">a. 10% or 49</p> <p style="padding-left: 20px;">b. 35% or 172 if 100% tested or vaccinated.</p>	<ul style="list-style-type: none"> • Max 67%, includes suites with 25% occupancy per suite • In-state visitors only, check for current CDPH Travel Advisory in effect • Primarily in-seat concessions (no concourse sales) • Each student to bring no more than two guests <p>SRC: 3,000 seat capacity</p> <p style="padding-left: 20px;">c. 10% or 300</p> <p style="padding-left: 20px;">d. 50% or 1,500 if 100% tested or vaccinated.</p> <p>University Theatre: 492 seat capacity</p> <p style="padding-left: 20px;">c. 10% or 49</p> <p style="padding-left: 20px;">d. 50% or 246 if 100% tested or vaccinated.</p>	Not applicable for Fall	<p>https://www.cdph.ca.gov/Programs/CID/DCDC/Pages/COVID-19/COVID19-Graduation-Guidance.aspx</p> <p>https://files.covid19.ca.gov/pdf/guidance-live-performances--en.pdf</p>
	Page 6, 7 & 12			

Current Plan: Indoor Seated Live Events and Performances guidelines to be adhered to for commencement.

Graduates from the Classes of 2021 and 2020 will be provided the opportunity to sign up for blocks of time to walk across a stage individually as their name is read, have their photo taken in academic regalia on stage, and exit the opposite side of the venue. This activity will take place from Saturday, June 12, through Monday, June 14. There will be no guests permitted inside or around either facility, and students will line up socially distanced and with face coverings, as required by campus and public health guidelines. [Chancellor's announcement](#)

Space Use: Student Recreation Center Max. Occupancy of 3,000. University Theatre Max. Occupancy of 492.

To protect the safety and health of fellow students as well as staff and volunteers who assist with the events, all participating students must show proof of COVID-19 vaccination before queueing at either venue. Students who are unable to receive the vaccine for medical or religious reasons will not be excluded from participating. Unvaccinated students must have a PCR-based coronavirus test performed no more than 48 hours before coming to campus. [Please click here for additional information](#). Students eligible to participate will receive further instructions about registration via email. Virtual Grad Fair will begin on April 26, at which students can purchase mortar boards, gowns, sashes, cords, and other graduation items. More information will be posted to this site as the schedule and details are finalized.

Functional Area	Moderate (Orange Tier)	Minimal (Yellow Tier)	Post-June 15th Tier Removal	Reference Sources
<p>Research</p>	<p>The level of on-campus research-related activity moderate but considerably increased from the previous phase.</p> <ul style="list-style-type: none"> - All activities in Red are allowed. - Maximum density of occupancy in research facilities increased to 50% - At the deans' discretion, other time-sensitive research was not authorized in Red. On-campus research by early-career faculty and graduate students is not already allowed in Red. - Human subjects research - TBD - Field research - TBD. - Prioritize access to graduate students and postdocs who were not authorized in Red. - Core lab facilities and machine shops operational and based on WSSPs. Dry/computational labs open (50% maximum occupancy) with approved WSSPs on file and follow the proper guidelines for density and distancing. - Use of libraries (see library section). - Access to offices (as in other areas of the framework) can be allowed if meeting the physical distancing and other health protocols for this phase, based on the work site-specific plan and maintaining 50% density by floor and the maximum occupancy of common spaces. PIs, department chairs, and Deans will coordinate on the specifics of the WSSPs. - Some research-related travel may take place if allowed by the health authorities 	<p>The level of on-campus research-related activity substantially increased.</p> <p>All the activities allowed in the previous phase continue to ramp up to 75% density and possibly reaching 100% density, based on local guidance and stages of the pandemic. Guidelines could be revised based on vaccination and new policies from the state and UCOP. WSSPs may need to be periodically updated.</p>	<p>All on-campus research activity is allowed to some degree, most at 100% occupancy at the dean's discretion. WSSPs continue to be required with modification based on the possible requirements about vaccines and other health preventive measures, which are unknown at this time.</p>	<p>Factors that may drive changes to future Phase 4 (Research Activities After End of Stay-at-Home Order):</p> <ul style="list-style-type: none"> • Workforce vaccination • Cal OSHA regulations – if no changes, their physical distancing requirement will make it difficult to move to Research Phase 3 in non-clinical settings • Changes to UCR Executive Directives • Changes to what UCR will allow under Research Phases 2 and 3 (and possibly Phase 4 • Future changes/adjustments to the State of CA color tier system • Continued high compliance levels with Research Phase 2 safety precautions and measures (EH&S spot checks continue to confirm 98% compliance) and future high compliance levels at Research Phase 3 and beyond. • Changes to CDC guidance that might drive changes to any of the above.
<p>Current Plan: 50% density and building occupancy Summer Session: 75% density in labs (and more, based on CDPH guidance); more faculty back in offices for research Fall Quarter: 100%</p>				
<p>Instruction</p>	<p>Indoor lectures are limited to 50% or 200 people, whichever is less. Some courses conducted in certain indoor settings, like labs or studio arts, may be open at a regular capacity.</p>	<p>Indoor lectures limited to 50%. Some courses conducted in specialized indoor settings, like labs and studio arts, may be open at a regular capacity</p>	<p>Targeting 75-80% of all courses for in-person instruction, with varying enrollment densities.</p> <ul style="list-style-type: none"> • For classes with enrollments above 80 students, the maximum allowable density will be 50% of room capacity. • For classes with enrollments between 35 and 80 students, the maximum allowable density will be 67% of room capacity. • For classes with less than 35 students, normal density will be allowed. <p>Flexibility at the department/program level to determine delivery modes. Chairs and directors will work with their faculty to determine a mix of 75-80% in-person courses and 20-25% remote courses for each department or program.</p>	<p>https://files.covid19.ca.gov/pdf/guidance-higher-education--en.pdf</p> <p>Page 10</p>
<p>Instruction Current Plan – Following the COVID-19 instructional continuity plan last updated in September 2020. Most in-person courses must be approved on an individual basis. Exceptions include 1:1 courses such as individual study; research units, which are under the purview of the research plan; clinical and internship courses, which are under the purview of COVID-19 guidelines at the physical site where they occur; and some classes in the School of Medicine. Summer 2021: Instruction will continue under the current plan through summer. Fall 2021: Planning for a return to primarily in-person instruction, targeting 75-80% of all courses to be delivered in-person. Most smaller courses will meet in-person at full room capacity; most larger courses will meet in-person at reduced room capacity, and most of the largest courses will remain remote. Some in-person courses may offer a remote option for students who are unable to attend in person. Course-level information on delivery modes will be available in the Schedule of Classes when students begin registering for fall.</p>

<p>Summer Session: (S) UCR Summer Academy has been suspended.</p>				
<p>Housing</p>	<ul style="list-style-type: none"> • Maintain physical distancing in on-campus housing, and even modified guidelines may be challenging to achieve. However, every effort should be made to decrease the risk for exposure at on-campus housing arrangements by reducing occupancy. • Establishing allowable occupancy and developing plans to monitor and enforce. • Prioritizing single room occupancy wherever possible, except for family housing. This may be feasible if the college/university has a limited number of students on campus for in-person instruction. When there must be two students per room, ensure at least six feet between beds and require students to sleep in opposite directions (head to foot). • Minimizing the number of residents per bathroom. When shared bathrooms are used, stagger times of use to the extent possible, and increase the frequency of cleaning. • Restricting building access by non-residents, including outside guests, non-residential staff, and others. These restrictions may not apply to some people, such as personal care attendants for students with disabilities 	<p>no change</p>	<p>Reasonable Scenario:</p> <ul style="list-style-type: none"> • Mostly singles and doubles; triples allowed with >90% student vaccination target met • Family housing at full occupancy • Reserve >2% as isolation and quarantine space. <p>Best Case Scenario:</p> <ul style="list-style-type: none"> • Singles and doubles; triples allowed with >90% student vaccination target met • Familyhousing at full occupancy • Reserve <1% as isolation and quarantine space. 	<p>https://www.cdc.gov/coronavirus/2019-ncov/community/shared-congregate-house/guidance-shared-congregate-housing.html</p> <p>Pages 13-14</p>
<p>Current plan: All residence hall rooms are configured as single occupancy only. A-I and half of Pentland Hills residence halls are closed. All campus apartments and family housing buildings are open with no occupancy configuration restrictions. All residential amenities are open. There is a mask & physical distancing requirement throughout campus housing. Appropriate Covid occupancy limits are posted in residential amenity locations, and furnishings are adjusted where possible to encourage adherence to guidelines.</p> <p>Summer Session: All residence halls are projected to be closed. Glen Mor, Bannockburn Village, The Plaza, Falkirk, Stonehaven, North District, and Oban Family Housing are projected to be open. All residential amenities are expected to be open in occupied buildings while abiding by appropriate public health guidance.</p> <p>Fall Quarter: The goal is to open all residence halls, campus apartments, and family housing buildings, and associated amenities while abiding by the appropriate public health guidance. Current guidelines suggest single, double, and design triple occupancy residence hall rooms may be permissible. No occupancy configuration restrictions are currently projected for campus apartments and family housing. The goal is to mandate Covid-19 vaccines for campus housing students, perhaps without exemptions. Campus housing is not required for any student demographic.</p>

State California Department of Public Health: Addendum to Blueprint Activity & Business Tiers Chart – Tested and Fully Vaccinated Individuals and Sections

FULLY VACCINATED VISITORS AND SPECTATORS

- Fully vaccinated persons from out of state may visit or attend activities or events restricted to in-state visitors. Fully vaccinated persons should consult the current CDPH Travel Advisory and adhere to any applicable recommendations.

FULLY VACCINATED WORKERS

- Where capacity limits exist, fully vaccinated workers do not count toward any occupancy capacity limit.

VENUES WITH FULL TESTING/VACCINATION – CAPACITY BONUS

Tier 1 Widespread	Tier 2 Substantial	Tier 3 Moderate	Tier 4 Minimal
Existing capacity limits apply	Existing capacity limits apply	Outdoor: Existing capacity limits apply Indoor: Venues may increase capacity by an additional 50%, up to a maximum of 50% of total venue capacity.	Outdoor: Existing capacity limits apply Indoor: Venues may increase capacity by an additional 50%, up to a maximum of 75% of total venue.

- Venues that have fully vaccinated or tested negative attendees only may increase their capacity as follows unless a different capacity limit is specified for that sector in the grid. Venues may not use the capacity bonus below if any section of the venue includes attendees that do not show proof of negative test or show proof of full vaccination.

VACCINATED-ONLY SECTIONS – DISTANCING AND OTHER REQUIREMENTS

- Fully Vaccinated-only sections must be separate, distinct, and clearly marked from any other section of the venue that is set aside for tested attendees.
- Individuals in the Fully Vaccinated-only sections do not have to be physically distanced. Face coverings are required.
- Fully Vaccinated-only sections may be seated at full capacity within that section only. Suites may also operate at 100% of suite capacity if all guests show proof of full vaccination. However, capacity for the venue must not exceed the limits established above.
- There must be at least 12 feet of distance between the Fully Vaccinated-only sections and any other section in the venue.

TESTING AND VACCINATION STATUS – DEFINITIONS AND VERIFICATION

1. *Tested-only section:*

- a. Definition: Attendees who have tested negative and seated in a section with other attendees who have tested negative. Testing must be conducted within 72 hours before event start time, if using PCR. Antigen tests are acceptable and must be conducted within 24 hours of start of the event. Results of the test must be available prior to entry into the event or venue.
- b. Verification: The following are acceptable as proof of a negative COVID-19 test result: printed document (from the test provider or laboratory) OR an email or text message displayed on a phone or electronic device from the test provider or laboratory. The information provided should include name of person tested, type of test performed, and date of negative test result (for PCR, date of negative result must be within prior 72 hours; for antigen, date of negative result must be within prior 24 hours).

2. *Vaccinated-only section:*

- a. Definition: Fully vaccinated attendees seated in a section with other fully vaccinated attendees. People are considered fully vaccinated for COVID-19 at \geq two weeks after they have received the second dose in a 2-dose series (Pfizer-BioNTech or Moderna) or \geq 2 weeks after they have received a single-dose vaccine (Johnson and Johnson [J&J]/Janssen) Children (> 2 years of age) who are not eligible to be vaccinated may sit with their parent, guardian, or sponsor in the Fully Vaccinated-only sections if they are tested. Children younger than 2 do not need to be tested and may also sit with their parent, guardian, or sponsor in the Fully Vaccinated-only section. Children sitting with the parent, guardian, or sponsor in a Fully Vaccinated-only section are considered for purposes of social distancing to be fully vaccinated.
- b. Verification: The following are acceptable as proof of full vaccination: Vaccination card (which includes the name of the person vaccinated, type of vaccine provided, and date the last dose administered) OR a photo of a vaccination card as a separate document OR a photo of the attendee's vaccine card stored on a phone or electronic device OR documentation of vaccination from a healthcare provider.
